This book demonstrates that contrary to the claims of its critics Christianity is not a refuge of foolish emotionalism or pie in the sky hopes on the contrary argue these authors it's irrational not to be Christian that's because Christianity makes sense reason thrives within its rigorous doctrines and inside its loving boundaries the human intellect is most free no wonder so many sensible men and women of all ages are converting to Christianity these days whether you're approaching the Christian faith from the outside or come to this book already a Christian you'll find in these pages simple but not simplistic rational explanations of each of its core doctrines including evidence and

proofs that god exists and his existence can be proven by reason god is not a force but a personal being who loves us evil does not disprove the existence of a good god each individual soul was created by god and is immortal religion is the reasonable response to the goodness of god the christian gospels are god s revelation of himself to us christ himself was truly god but he was also truly man christ died on the cross for the salvation of all mankind christ established a church to which all should belong that church still exists and has authority today and much more that shows how christianity makes sensethis is an excellent book for all honest inquirers and for all believing christians who want to know their faith better and to explain it to others

in our post christian society many skeptics atheists and agnostics assume that the christian faith involves belief in spite of a lack of evidence and that christianity encourages its adherents to be satisfied with not understanding the world this is untrue christianity has a legacy of thought and logic and a convincing case can be made that modern science and western culture could only have sprung from the judeo christian worldview although questions of origins purpose and meaning are not easily proved true in a scientific or empirical sense things can be true without empirical proof it does not follow that religion is untrue or that religious belief is for the credulous and the gullible many of the presuppositions underlying any worldview cannot be proven empirically and acceptance of many of the truth claims of atheism and postmodernism requires just as much faith as acceptance of the fundamentals of christianity this book is an attempt to demonstrate that biblical christianity is true in the sense that it is a logical interpretation of reality and our lived experience and that the implications of christian faith make more rational sense than a rejection of that faith

we live in an age of scepticism our society places such faith in empirical reason historical progress and heartfelt emotion that it s easy to wonder why should anyone believe in christianity what role can faith and religion play in our modern lives in this thoughtful and inspiring book pastor and new york times bestselling author timothy keller invites sceptics to consider that christianity is as relevant now as ever as human beings we cannot live without meaning satisfaction freedom identity justice and hope and christianity provides us with unsurpassed resources to meet all these needs written for both sceptic and believer making sense of god shines a light on the profound value and importance of christianity in our lives

everyone wants to believe in something beyond or someone bigger than themselves but nobody wants to be duped in order to provide answers to people who are seeking the truth mark mittelberg updates for today the classic book by robert laidlaw that sold millions the reason why this short book gives clear concise reasons why belief in god makes sense

in recent years the christian faith has been challenged by skeptics including the new atheists who claim that belief in god is simply not reasonable here prominent christian philosopher c stephen evans offers a fresh contemporary and nuanced response he makes the case for belief in a personal god through an exploration of natural signs which open our minds to theistic possibilities and foster belief in the christian revelation evans then discusses why god s self revelation is both authoritative and authentic this sophisticated yet accessible book provides a clear account of the evidence for christian faith concluding that it still makes sense to believe

christians need an explanation for why we believe in christ that will stand up to modern criticism such an argument may not build an

inescapable case but it can give a good rational foundation on which to base both our faith and confidence concise and easy to read in the traditional chinese character set this book is an invaluable evangelistic tool for those sharing their faith useful as a gift to the seeker or an instructional tool for the christian believer

it has never been more important to articulate the wonder and enchantment of the christian message yet the traditional approaches of apologetics are often outmoded in an age of profound disenchantment and distraction unable to meet this pressing need this winsome apologetics book for a new generation makes the case that christianity offers a compelling explanatory framework for making sense of our world pastor and writer gavin ortlund believes it is essential to appeal not only to the mind but also to the heart and the imagination as we articulate the beauty of the gospel why god makes sense in a world that doesn t reimagines four classical theistic arguments cosmological teleological moral and christological making a cumulative case for god as the best framework for understanding the storied nature of reality the book suggests that christian theism can explain such things as the elegance of math the beauty of music and the value of love it is suitable for use in classes yet accessibly written making it a perfect resource for churches and small groups
